# EXTREMELY WELL BUILT AND DESIGNED!

. Guaranteed decent crowds for every race and they never leave early.

-Quickest and Flatest 1/8th mi. track in FL—BUT, this track you can take it with you!

-HO scale slot car track built by Fulltilt Speedway

- Drag strip with two lane return road. Return road and drag strip can be used and includes timing equipment for long skinny oval racing too\*

- Mounted 6" down inside six beautiful kitchen sink cabinet bases with three custom, piano hinged, locking lids for security and dust prevention.

- Track was built in Tennessee by Fulltilt and uses electricians fish tape for track wiring. The tape has rounded edges for long wear of both the wire itself and the pickup shoes on the race cars. Formica track surface with custom grass paint. Track was shipped to Florida where it was solidly mounted inside the custom sink bases. Additional soft surface, high mounted staging lanes for convenience.

- Includes Trakmate DP2000 Timing equipment with computer, keyboard, mouse and monitor plus the extra cabling to show on your big screen tv so everyone in the room can see the results.

**Over \$8,400 spent on just the track, hardware, electronics, and decorative background supplies.**

-----

- No expensive, heavy and messy batteries or battery charger needed.

- This track has a history of being raced on by well known people in the full size racing industry including magazine writers, photographers, track owners, track staff and full size drag racers. It's also been enjoyed by my grand children and many others.

- The track and cabinets disassemble into one 2' x 16' by 8" stout track plus six 3' wide by 2' deep kitchen cabinet bases.

The additional items such as the computer, monitor, power supplies and other small items will fix in 3 or 4 plastic tubs.

**FOR SALE \$4,500**
